

MAPLE AND ASH STREETS FROM BROADWAY AVENUE TO NORTHWEST BOULEVARD

Rehabilitated Maple Street and Ash Street from the Maple St. Bridge to Northwest Boulevard and paved the intersections of Maple Street and Ash Street at Northwest Boulevard and Boone Avenue with concrete. The project also included the installation of a fiber optic communications system (ITS), including new cables for traffic signals and cameras.

The \$4.2 million project was funded with money from the 10-Year Street Bond, federal sources, and the Spokane Transit Authority.
